ANISHA GIRI—O
DESIGNER & FRONT-END DEVELOPER

I specialize in designing and developing clean, efficient, and meaningful online presences using HTML5, CSS3, and Javascript. I have over 5 years of experience and am looking for an exciting career that will allow me to contribute, learn and work as a part of a dynamic team.

EXPERIENCE

BLEACHER REPORT • FRONT-END ENGINEER • OCT 2011 - PRESENT

Maintained Bleacher Report's website, Team Stream mobile app, and mobile/tablet presence; refactored high impact features using React.js and Backbone.js; wrote robust Javascript tests using Jasmine 2.0; established a CSS style guide during redesign initiatives; refactored legacy code; collaborated with various departments to develop new product features to spec; troubleshot and fixed bugs; worked closely with marketing and sales teams to conceptualize, build, and maintain high profile ad campaigns

ALCHEMY INNOVATIONS • DESIGNER & ENGINEER • OCT 2011 - JAN 2015

Consulted with clients to design, develop, and maintain usable and attractive online presences; managed projects from conception to completion; created meaningful branding and associated assets

4 WHEEL PARTS • DESIGNER & FRONT-END ENGINEER • APRIL 2011 - OCT 2011

Maintained over 12 high-traffic e-commerce websites across the TAP network; designed and built out new feature sets and websites in HTML, CSS, and JQuery; created effective and professional weekly email campaigns; strategized and planned for new User Interface initiatives, projects, and goals; participated in the re-design and branding of new and existing sister companies.

GOLDENCOMM • DESIGNER & FRONT-END ENGINEER • SEP 2009 - APRIL 2011

Organized intuitive and structured site plans for a variety of different clients; created attractive, professional and polished designs; managed projects from conception to completion; wrote efficient, cross-browser front-end code; interacted with clients to ensure customer satisfaction, timely progress, and project completion, participated in refactoring efforts
